

Fertilizer/herbicide applicator

Summary: As the lawn and landscape fertilizer/herbicide applicator you are responsible all six rounds of lawn fertilization and all deep root fertilizing

Primary Duties:

- Read all work orders for the day thoroughly prior to leaving the shop, be sure to check for any and all special instructions and be sure that you have loaded all necessary materials and supplies for the day
- The application all of six rounds of lawn fertilizations including herbicide, fungicide, and grub control treatments in the allocated time frames created by your supervisor
- Complete each round as efficiently as possible both by route choice and applications practices while maintaining a high level of quality work
- Communicating with your supervisor and about product inventories and possible shortages that may occur
- Clean and calibrate all fertilizing equipment (also including cleaning of the truck and trailer) regularly
- Being accountable for all of your equipment and being mindful to lock it up when necessary
- Communicating with your supervisor about weather forecast (high winds, rain chances, temperature that are above suggested temperature windows for application) and formulate a plan
- Maintain an up to date MSDS (material safety data sheet) posted in trailer with a copy in the truck at all times
- Labels/specs on all chemicals aboard your truck and trailer
- Discuss any issues with a property (i.e. fungus out break grub damage, etc.) with your supervisor and/or customer and work towards a solution
- Report any damaged/broken down/faulty tools so that they can be replaced or fixed
- Properly fill out all work orders with ample detail including date, start and stop times, number of crew members, and any add-ons that were not on the work order
- Attend any and all training/educational classes requested by your company
- Always return all tools to their proper locations at the end of the day, top off all vehicles used with fuel, and make sure they are cleaned out properly
- Promote the companies mission statement and values on a daily basis
